

# Project «Helping Hands»

The background features a vertical gradient from dark brown at the top to light yellow at the bottom. In the lower right quadrant, there are several overlapping, wavy, semi-transparent shapes in shades of grey and yellow, and a solid dark grey rectangle.

We have charity organizations. Their members raise money for disabled people and raise clothes. I suppose, they support lonely people.

My grandmother

Donating money is a good contribution. I help poor people by raising money. My mum asks me to help my grandmother. I clean up the room of my grandmother. Besides I cook dinner for my mother.

I think that helping other people is really good. I sometimes make donations for homeless children. I love animals very much. And I very often help animals. I give food. I don't understand those people who give up their animals. It's bad.

Moreover I want to look after needy people. I'll read books to them, play games or just chat with them.

This is very well that we have charity organizations😊.

# THE END
